Creating Stable Links to Articles in Ovid Databases

In Ovid, stable URLs are referred to as “jumpstarts”. To create a stable link or “jumpstart” to a full text Ovid article, bring up the article in a search and click on the “Ovid Full Text” link in the search result display:

Look for the “Email Jumpstart” link on the top or right-hand side of the page and click on this link:
Select and copy the “Jumpstart URL” for pasting into your website, course, or other documents. Please note that the Jumpstart URLs provided by Ovid include the VIU Library proxy server prefix, which is essential to providing off-campus access to a stable link.

Paste the copied URL to create a stable link to the article in your website or course. It will look something like this:
