Creating Stable Links to Videos in *Films on Demand*

Stable links to videos and video segments (clips) in *Films on Demand* are available directly from the search results listing.

After searching for titles or segments in *Films on Demand*, click on “/Embed/Link” for the title or segment you would like to link to.

A box will pop up containing the “Record URL” and “Embed Code.” (In the case of segments, a “Segment URL” will also appear.) Click on the “Copy” button for the Record URL (or Segment URL). Paste the URL into your document, web page, course, etc.
